Entered according to Act of the Parliament of Canada, in the year one thousand eight hundred and ninety, by WILLIAM BRIGGS, Book Steward of the Methodist Book and Publishing House, Toronto, at the Department of Agriculture.

PREFACE.

IN the Indian Schools of our country, teachers and missionaries have labored at a disadvantage with the primers compiled for White Schools. Those text-books are adapted for pupils who talk English before they enter school. Indian children must begin conversational and written English at the same time. In view of this fact, the exercises in the Primer and Language Lessons have been prepared. They embrace subjects, sentences, phrases, idioms, and words designed to introduce the children by an easy and natural method to the study of English. It will be observed that the forty lessons include all the parts of speech. Teachers will have the opportunity of studying the Cree Syllabics, and explaining to their scholars the meaning of the English text. Missionaries and teachers will possess a Cree text of model sentences and idioms for private study, and will be better qualified to read the Bible, the Hymn Book, the Catechism in Cree, and to teach adult Indians to read and write their own language.

Should a teacher, with the sanction of the Indian Department, instruct children in the use of Syllabics, fifteen minutes each day will be found sufficient ; but the main effort should be to drill pupils in the English tongue.

APPENDAGES.

- ɔ = n, as in ρɔ, it is cold.
 ʼ = m, " ∧ɔʼ, sun.
 ʻ = s, " ɔ∨ɔʻ, boy.
 ɪ = p, " ɔɔɪ, duck.
 ʼ = k, " σɔ.bɔʼ, he leaves me.
 ʼ = t, " ɔ∧ʼ, tooth.
 ʻ = ch, " ɔʻ∧ʻ, very.
 . = w, when placed immediately to the right of a syllable,
 as in σɔ., my wife.
 ˙ = i, when placed higher to the right, as in σʻɔ(ɔ˙, my
 coat.
 : = wī, combining the value of each point as given above,
 as in ɔɔ:, k̄ā-k̄wī.
 " = the rough breathing, or aspirate, as in ∧"ɔ, ashes.
 × = a combination of " and ʼ, that is, of the aspirate and k,
 as in ɔ∧×, sē-pēhk, at the river.
 ʒ = r, as in ɔʒʻ, Christ.
 ʒ = l, " ∇ɔʒʒ, angel.
 ɔ = oo, " ɔ∨ɔ, man.

When “.” and “o” are placed to the right of a syllable, as in $\wedge\rho^{\wedge}q\cdot o$, the value of “.” is absorbed by the syllable, while that of “o” is affixed. Written in Roman characters the word $\wedge\rho^{\wedge}q\cdot o$ will illustrate:—pe-kis-kwāoo; “w” is within the syllable, and “oo” is affixed to it. The value of “.” which appendage must be placed after the syllable it affects, is always absorbed except in the case of $\nabla\cdot$, $\triangle\cdot$, $\triangleright\cdot$, $\triangleleft\cdot$, in which, though “.” is affixed in position, its value is prefixed. The above combinations are pronounced, wā, wē, wō, wä. The absorbed and the prefixed values of “.” are met with in the word $\triangle\cdot\wedge\rho^{\wedge}q\cdot o = wē-kē-kis-kwāoo$, he wishes to speak.

It will be noticed that there are quantities between ∇ and $\triangleleft$ $\vee$ and $<$, etc., less full than those given in the Alphabet. When quantities similar to the alphabetical ones are very necessary in the pronunciation of a word, the period “.” is placed directly over the long or broad syllable, $\sigma b\dot{\rho}\cdot\dot{c}\dot{l}^{\circ} = ni-kǎ-kwē-tǎ-mǎn = I$ shall be in need. $\nabla d\dot{c}$ $\sigma b\ddot{\triangleleft}^{\circ} = I$ shall be there; here the last syllables are, “ä” and “yän,” both broad. $b\triangleleft\dot{l}^{\circ} =$ where you are. The last “ $\triangleright$ ” is not broad, kǎ-ǎ-yä-yun.

MODEL LETTER.

MORLEY, ALBERTA,

February 21st, 1890.

DEAR FATHER AND MOTHER,

1. It is two years since I came here. At first I was lonesome, but now, though I often think of you, I am glad I was sent here to learn English and to work.

2. On Saturday there is no school, but we work and play a good deal. I like to feed cattle and ride a horse to water. One day the horse ran away with me, and threw me against the fence. My flesh and bones were sore for two or three days. The teacher did not scold me. However, he thought I was careless; and said he was thankful the horse did not kill me.

3. Some of the boys steal things to eat when there is a chance. We are fed plenty at meals, and I feel better when I try to do right.

4. Sometimes I disobey. Our teacher tells us not to tease animals. Once I snared a gopher, and dragged it about with a string until it was almost dead. One of the girls told the teacher I disobeyed him, so he whipped me well. I told him I did not like to be thrashed; he said the gopher did not like to be

abused, and he told me I was cruel. I should have killed the gopher at once, as I was told, but I like that kind of play better than the gophers do. They eat oats and carrots, and other things we raise for food. I hope that my younger brother and sister will be brought here to school, and that they will quit teasing gophers, and give up other bad habits before leaving home.

5. I do not wish to live in a tent any more, or wear a blanket. When I am grown up, I will try to get about twenty cows and two horses to keep on a farm. Every white man makes his own living, because he is taught from childhood to work. I shall never ask for a blanket or rations. Why does the Government not give you coats and pants instead of blankets that make people look foolish and lazy?

6. The snow is not deep at Morley, and does not remain long, because sometimes the wind is too warm for snow. This winter a wounded bear killed a Stony in the Rocky Mountains not far from here. We were all sorry for his wife and children. Another man accidentally shot himself, and died very soon afterwards.

7. The girls in this school can do many things they could do at their homes. They knit, and sew, and make bread, and do other work, and tell on a boy when he does wrong. They are not very good themselves.

8. There are two schools on the north side of the river, and one on the south side. Mr. McDougall brings boys and girls to this school. Some of them come from afar. Mr. and Mrs. Youmans make us talk English at play and at work, so we learn fast. On Sunday the children are taken out to church; they like it if it is not too cold. I wish you could hear us sing, and read and talk English.

9. The Stonies hunt in the Rocky Mountains, farm on both sides of the river, and live in houses. I was surprised at first that these Indians do not gamble, or dance, or bet. Now I see they are taught that these things do them harm and make them poor. The Stonies have faith in the Bible, and listen to the advice of the missionary. Would that all the Crees and other Indians gave up their evil ways and read the Bible!

10. I love you all more than ever, and I am anxious to see you and tell you many things that I cannot put in this letter. Dear mother, I have something I am keeping for you until you and father come to see me in the spring.

Your loving son,

CHIEF SAMPSON,

THOMAS.
